PART 1

The Duckietown project

CHAPTER 1

What is Duckietown?

TODO: Write mission statement

CHAPTER 2

First steps

2.1. How to get started

If you are an instructor, please jump to [Chapter 3](#). If you are a self-guided learner, please jump to [Chapter 4](#). If you are a company, and interested in working with Duckietown, please jump to [Chapter 5](#).

2.2. How to keep in touch

TODO: add link to Facebook

TODO: add link to Mailing list

TODO: add link to Slack?

2.3. How to contribute

TODO: If you want to contribute to the software...

TODO: If you want to contribute to the hardware...

TODO: If you want to contribute to the documentation...

TODO: If you want to contribute to the dissemination...

CHAPTER 3
Duckietown for instructors

CHAPTER 4

Duckietown for self-guided learners

TODO: to write

CHAPTER 5

Introduction for companies

TODO: to write

CHAPTER 6

Contributing to this documentation

6.1. Where the documentation is

All the documentation is in the repository `duckietown/duckuments`.

The documentation is written as a series of small files in Markdown format. The output is:

- a publication-quality PDF;
- HTML (single-page);
- HTML (multiple pages).

6.2. Editing links

The simplest way to contribute to the documentation is to click any of the “✎” icons next to the headers.

They link to the “edit” page in Github. There, one can make and commit the edits in only a few seconds.

6.3. Comments

In the multiple-page version, each page also includes a comment box powered by a service called Disqus. This provides a way for people to write comments with a very low barrier. (We would periodically remove the comments.)

6.4. Compiling the documentation

TODO: Write instructions - it’s “make all” but the dependencies are complicated.

6.5. Deploying the documentation

TODO: Write instructions

CHAPTER 7

Features of the documentation writing system

7.1. Embedded LaTeX

You can use ***LaTeX*** math, environment, and references. For example, take a look at

$$x^2 = \int_0^t f(\tau) \, d\tau$$

or refer to Proposition 1.

Proposition 1. (Proposition example) This is an example proposition.

TODO: other LaTeX features supported

7.2. Other interesting features

TODO: to write

CHAPTER 8

Frequently asked questions about Duckietown

TODO: to write

PART 2

Modeling
